## Arrival of the "Pacific."

FIVE DAYS' LATER NEWS.

## Lincoln's Election Confirmed.

## SECESSION COMMENCED.

## Later From Europe.

## GENERAL INTELLIGENCE.

The steamship Pacific arrived at 9 o'clock yesterday morning, bringing "due days" later news from California than that brought by the Overland Mail. The news is very important, indicating that a secession movement has commenced in the Southern portion of the United States, owing to the intense feeling caused by the election of Lincoln. From the Portland Advertiser of Nov. 28th, we take the following dispatch from St. Joseph, Missouri, Nov. 10th:

Maryland has gone for Breckinridge by a small plurality. Virginia is still in doubt. Nothing further from Georgia. Bell has probably carried Tennessee; it is still considered doubtful. Kentucky certain for Bell. The Montgomery mail of to-day claims Alabama for Breckinridge by 10,000. From Louisiana there are few returns, Bell is still ahead, though the state is supposed to have gone for Breckinridge. There is nothing from Texas or Florida. In Arkansas, Breckinridge is ahead, and has undoubtedly carried the state. South Carolina has elected Breckinridge electors. North Carolina has gone for Breckinridge. Missouri is so close between Bell and Douglas that it is impossible to tell who has got the State, although the chances are favorable to Bell.

The Republicans were beaten in New Jersey by 4000 majority.

The Illinois Delegation is unchanged—the Republicans have eleven majority in the Illinois Legislature. The Governor of Pennsylvania has issued a proclamation declaring Lehman elected to Congress from the First District. Byerly, who perpetrated the fraud in that District, has been sentenced to ten years and a half imprisonment and fined \$300.

Every Free State but New Jersey has gone for Lincoln.

Massachusetts Legislature, Rep. 291; Dem. 19. Appleton's majority over Burlingame, 1,259. Republican vote in New York city, 33,322. Last year, for Secretary of State, 18,272. New Jersey Congressmen: 2 Rep.; 3 Dem. Republican majority in Illinois thought to be not less than 26,000. Breckinridge's plurality in Delaware 1,700. Fisher, People's candidate for Congress, elected by 363 majority only. Wilmington City gave Lincoln a plurality of 100.

The Washington correspondent of the St. Louis Republican says: The programme of Lincoln, as understood by the Republican Executive Committee, is to deliver a speech on the occasion of being serenaded—which speech is already prepared for publication—in which he will lay down clearly and emphatically the principles on which he will administer the government, and these principles will be such as to meet a cordial endorsement by every one, except, as I have before said, the ultras North and South. They will be mutually disappointed.

The bark James Gray owned by Cushing of the Boston Line, under instructions from owners, yesterday hoisted the Palmetto flag and fired fifteen guns in Charleston harbor.

Several Southern Statesmen have delivered speeches advising secession.

A dispatch to the New York World says: Current rumors of the seizure of Fort Moultrie, in Charleston, by the secessionists, were not credited at Washington.

The prominent South Carolinians are said to be in consultation.

The Williamson (S. C.) Spring House, was also burned. Loss \$60,000.

A report that the steam gunboat Seminole had been burned off Pernambuco, proved unfounded.

The Astor House, New York, was damaged to the amount of 15,000 by fire, on the Vesey street side on the 8th inst.

The steamer Mohawk exploded her boiler at Detroit on the 7th inst., killing the second engineer, three firemen and one deck hand.

The propeller Globe, from Buffalo, exploded her boiler yesterday; several persons were killed, and a number injured. The killed are Ann Golden, Patrick Donahue, James Hobbie, of Chicago, Ben Wilson, first engineer, Forsyth, second engineer, and four firemen.

A fire at Columbus, Georgia, consumed the Agency Bank and several stores and dwellings, on the 7th. Loss \$50,000.

## ONE DAY LATER.

A mass meeting at Savannah on the night of the 8th inst. was addressed by the Bell Electors and others. An immense crowd was present and great enthusiasm prevailed. Resolutions were adopted not to submit to the election of Lincoln; also requesting the Legislature to call a convention to discuss a mode of redress and to take immediate steps to organize an armed force.

The State Colonial flag of Georgia was raised at Green's monument, Johnston's Square, Augusta, last night, by an enthusiastic meeting.

The formation of clubs of minute men at Mobile is going on.

A battalion of cavalry were organized and had offered their services to the Governor of Alabama.

## TWO DAYS LATER.

Mr. Chestnut, U. S. Senator from South Carolina, and Mr. Toombs, U. S. Senator from Georgia, have resigned their offices. Volunteers are being enrolled in the Southern States:—A dispatch says that the citizens of Mobile are opposed to disunion, but that nine-tenths of the people in the county are in favor of it. A plan of secession will be organized this week. The Governor, Judiciary, and others, and all the Congressmen but one are for disunion. A mounted cavalry has been determined upon. Minute men are organizing. An extra session of the Legislature has been called.

An attempt made at Philadelphia to form Republican clubs into a posse to support Lincoln in the Presidential chair, has been defeated. Resolutions expressing good-will in all sections were adopted. One ward tendered its services for the inauguration, and opposes any interference of Southern minute men.

An immense run has been made on the Charleston Banks, and a special law has been passed by the Legislature to protect them.

## Europe.

Dates from Europe are to October 28th: The Warsaw Congress of Crowned Heads abruptly terminated on the 26th of October, owing to the illness of the Dowager Empress of Russia. The royal party and their ministers held a conference on the 25th. Nothing authentic transpired, but the statement was aloft that the principle of an European Congress had been adopted.

The Opinions of the Turin, caused considerable sensation in all quarters, by publishing an article branding the Warsaw meeting as nothing but a conspiracy on the part of Governments represented there against France, and charging England with being a go-between. The same journal gives the report that the Government of Austria proposes to negotiate with France for a pacific solution of the Italian question.

The British legion in Italy had a smart encounter with royalists at Capua, but were victorious, with a loss of three killed and thirty wounded.

It was said that the English Admiral was going to Gaeta, for the purpose of protecting the flight of the King of Naples.

Spain had withdrawn its Ambassador at Turin, leaving its affairs in the hands of the Chargé.

The text of the Russian note to Sardinia, protesting against her course relative to the affairs of Italy, and ordering her legation to retire, was published. It is very strong in its tone.

Napoleon had received a letter from the Czar to the effect that nothing hostile to France should be entertained at the Warsaw interview.

Advices from Constantinople say the Grand Vizier was favorable to a forced loan. Ali Pasha was named for Foreign Minister. The withdrawal of Riza Pasha from the Ministry was expected. A great fight occurred at the election of Greek Patriarchs. The British Government proposed to the Porte a modification of the commercial treaty of 1858.

Warlike preparations were being extensively increased on the Mincio.

An imperial decree raised the price of tobacco 20 per cent. in France.

An order had been issued at Vienna to prepare for the coronation of Francis Joseph, King of Hungary, next spring.

The Sardinian Ambassador has been ordered to leave St. Petersburg.

Victor Emanuel had arrived at Denifea, in Naples. The Royalists had evacuated Cajazzo and the vicinity. The line of the Volturmo had been abandoned for that of Gorgino. Garibaldi had entered Capua.

Victor Emanuel would be in Naples on the 28th October. The proclamation of the vote would be made the following day.

Gen. Lamoriciere will return to France.

Enlistments for the Papal army had ceased. It was said that the ambassadors of Prussia, Spain and Portugal were preparing to quit Turin.

The vote of Sicily was almost unanimous for annexation.

Gen. Benedick was appointed Commander-in-Chief of the army in Italy.

It was confirmed that Austria has 100,000 men in Verona alone. Mantua and Peschiera were likewise strongly garrisoned.

The Emperor Napoleon held a military council relative to the formation of a new plan of an army of reserve. All the Marshals attended.

The Pope had assured the Representative of France at Rome that he had no intention of leaving.

A semi-official article in the Paris Constitutionnel says that an organized and powerful Italy is henceforth for the interest of Europe. The part of France is that of non-intervention. When the revolution is accomplished, it should be consolidated by act of an European Congress.

The English squadron had left Syria for the Adriatic. Two French vessels remained at Beyrout. It was reported that agitation prevailed in Damascus, and threats were made against Christians on account of the taxing. Fud Pacha had returned there.

The ship Red Jacket, from Melbourne, had arrived in England with £150,000 in gold.

The ship Martha Wheelmore, of Richland, stranded in Dunsam Bay on the 20th October. The crew were saved.

At the Newmarket races, Mr. Ten Broeck's Umpire beat Tom Boerden, in a match for 1000 sovereigns.

A recent census of Russia shows a population of 79,000,000.

It was reported that the Nuncio at Madrid had collected, within a few days, 2000 reals for the Pope, which had been raised by the Bishop.

## California.

Ned McGowan, candidate for Congress from Arizona Territory, has been defeated by his opponent, Steck.

Carr, charged with the murder of a Mr. Cherry in Carson Valley, has been convicted. Rich gold discoveries are reported in California.

San Francisco was illuminated on the 15th, in honor of the election of Lincoln.

The millinery store of Mrs. Harris, on Clay street, near Kearny, San Francisco, was damaged by fire on the 16th. Loss \$1000.

Major J. B. Scott, U. S. A., died in San Francisco on the 22d ult.

The notorious Jack Powers is really dead. His body was so much mutilated by hogs as to be scarcely recognizable; and, from appearances, it is supposed that he was killed by a blow from behind, with an axe. His peons had all fled, and are of course suspected of having perpetrated the bloody deed. Powers had some \$6000 worth of stock on the ranch, which is secured to his estate by responsible parties. He also owns real estate in Hermosillo, Sonora.

Gen. Joshua P. Haven, Major-General of the Second Division California Militia, died at San Francisco on the 4th ult., of malignant erysipelas, after about 24 hours' illness. He was aged 43 years, and was a native of Philadelphia.

## The News.

Garibaldi and the Italian revolution still continue to be the all-absorbing topic in Europe. In England the movements of Garibaldi were watched with as much interest as though the British people were a party to the revolution. We observe that the *entente cordiale* has been established between Cavour and Garibaldi. The former still maintains his position in the Sardinian Cabinet; whilst the latter has consented to the removal of some of his revolutionary friends, such as Bertani. Cavour resigned; but his resignation was not accepted. It is evident, therefore, that the closest alliance exists between Victor Emmanuel and the revolutionary general. Judging by Cavour's speech in Parliament, Sardinia is determined not to sheath the sword till all Italy is delivered from Bomba, the Pope, and the Austrians. Bomba is conquered already. The Papal States have been invaded and partially occupied by Sardinians. French troops in and near Rome only prevent the occupation of the Eternal City itself; whilst Cavour announces the intention to make it the capital of United Italy—Venetia included. Before the latter can be accomplished a war with Austria must occur. It cannot long be deferred. Her military movements indicate a struggle with Victor Emmanuel; and she considers that as the latter has violated the treaty of Villafranca by armed intervention in Italy, her turn is now to strike for her lost provinces as well as to preserve to herself Venetia. Cavour intimates that Europe is of opinion that Sardinia will not be able to conquer Venetia. He repudiates the idea, holding that the inhabitants of Venetia are dissatisfied with Austrian rule; and that with twenty-four millions of Italians, success is certain against all the strength of Austria.

In the Southern States the disunion cry is still as loud or louder than ever. South Carolina and Georgia are the centres of disunion. But the development of the disunion plot shows that the disunion leaders are anything but certain as to the feelings of the leading Southern people. Their scheme has been to act through the State Legislatures; and not appeal to a convention of the people to decide the question of union or secession. If they could commit the South by such a policy, there are probably plotters enough who would not shrink from doing it. But secession is not likely to occur. Whatever battle is to be fought will be likely to occur on the floors of Congress at the next session, and a stormy session may therefore be expected.

**A NEW CHARTER TO HUNGARY.**—Austria has granted a new charter to Hungary—the poor, down-trodden land of the Magyars. The charter was favorably received at Pesth, and Buda was illuminated. The charter accords a Court of Chancery, and the Chancellor is to be a member of the Ministry. The number of members of Reichsrath is to be increased to 100 by Counsellors elected by provisional districts. The constitutional institutions of Hungary are to be re-established. The Hungarian language is to be the official language; all financial matters to be subject to the approval of the Reichsrath; the University at Pesth to be re-opened; the abolition of personal service due to the landlords, and of exempting nobles from taxes, is confirmed; representation of all classes of the country in the legislature and administration are to be re-established as principles. The Hungarian Diet is to be convoked without delay, and the Emperor is then to be crowned King of Hungary. Similar constitutions are to be granted to Transylvania.

**FREE FIGHT.**—Sergeant Blake, in attempting to arrest a drunken man near the Victoria Hotel, yesterday afternoon, was set upon by three others and somewhat bruised. They were all arrested after a hard fight, in which the officer had to use his fists freely.

**NO QUORUM.**—There was no quorum yesterday at the House of Assembly. The new member, Mr. Burnaby, was present and would have been sworn in had there been a sufficient number of members present to hold a meeting.

## Attempt to Fire the Town.

About half-past one o'clock yesterday morning, special officers McGee and Phillips observed smoke issuing from the second story of the house situated on the corner of Waddington alley and Johnson street. They immediately passed through a gate leading to the yard of the house and ascending a pair of stairs, discovered fire burning in two places—one at the head of the stairway, and another in the lining at the side. The officers immediately went to work and extinguished the flames. The blaze at the head of the stairs was found to proceed from two or three gunny sacks and some old canvass, in which chips and shavings had been placed; in the other case, the lining had been fired. There were five men sleeping in the building at the time, and had the fire gained headway, it would have been impossible for them to have escaped—as the flames from the stairs upon which the fire had been set would have cut off all egress. The neighborhood is built up with wooden houses, and one shudders to think of the consequences that might have ensued but for the promptitude of the two officers.

A few moments after the fire had been extinguished, the officers observed a man named James Herbert hanging about the corner; and thinking it a suspicious circumstance, tracked him to a lodging-house on Johnson street, where he went to bed. In the morning, complaint was made at the police office that a coat had been stolen from the China Restaurant on Waddington alley by Herbert the night before, and officer Welch accordingly arrested him. The coat was found in a bunk in which he had slept at the lodging-house. Shortly after he had been taken into custody for stealing the coat, suspicion was aroused that Herbert had fired the house above mentioned, as a citizen says that he had heard him declare early in the evening that he "would like to see a fire," and the Chinaman at the restaurant asserts that Herbert had told him there was a fire several minutes before the officers discovered it. He was also seen loitering about the premises before the fire broke out. An examination will be held before the magistrate this morning.

**SHARP PRACTICE.**—We learn by last advices from New Westminster, that the waterfront was rented by auction last Saturday. The rents obtained were generally very low. Evidently the "pepper corn" programme was carried out. The sharp practice, however, was in only giving a week's notice. Had a longer notice been given, justice would have been done to absentee lot owners. As it is they have only to place the renting of the water front on Saturday, down in the account with other swindles. When the front lots were sold the purchasers were to have a preference—at least, a chance to get wharf lots, but in the consummate wisdom of somebody, a brief notice is given, and what is tantamount to a hole-in-the-corner bargain is made. There is such a thing as justice; but the sharp practice about water-front property in New Westminster, induces us to believe that the article is scarce in some of the Government departments.

**GENERAL HARNEY LET OFF EASILY BY THE SECRETARY OF WAR.**—General Harney has got off almost Scot-free from the charges preferred against him by his superior in command, a "mild censure" from the Secretary of War being the extent of his punishment. This lenity, the Secretary tells him, is vouchsafed to him in "consideration of his valuable services," and of the "high estimation in which the Department 'holds his character as a soldier.'" As a compensation for the mild censure which he is required to endure, the General is informed by the complacent Secretary that he will retain his former position in the army, or will be assigned to one of the Departments, if he prefers it. He is furthermore informed that he will be allowed several months leave of absence. A mild punishment, truly, for rank disobedience of orders on the part of a military subordinate. We are not told that the Secretary's communication to the delinquent officer was closed with the tender of a complimentary dinner, though such a proceeding would not have been out of keeping with the whole tenor of the missive.

**ROUGH WEATHER.**—The bark W. B. Scranton arrived at San Francisco, Nov. 21st ult. She was compelled by a succession of heavy gales, to throw overboard a portion of her cargo, and lost all her sails.

**JOHN BUTTS.**—The unquenchable, irresistible, and inimitable John Butts has again been arrested and placed in quod for selling whisky to Indians. His case will come up this morning.

**THE NEXT STEAMER.**—The Pacific yesterday brought no mails. The California, however, is expected on Friday with the mails and four days later news.

**THE PACIFIC** left last evening for San Francisco, carrying away only about 160 passengers.

**WE** are under obligations to Mr. Moody, of the Victoria news depot, Government street, for files of California journals.

**THANKS.**—To W. F. Herre, news depot, Yates street, for files of late papers.

## From the Sandwich Islands.

By the arrival of the bark Jenny Ford at Port Townsend, we have dates from the Sandwich Islands to Nov. 1, for which we are indebted to Messrs. M. C. Monsarrat & Co.:

**BRITISH MEDAL AMONG CANNIBALS.**—A whaleship brought to Honolulu lately a British medal, which was found among the natives of the Navigator Islands. The body of the medal is of silver, and has inscribed upon it the name of "S. Lockyer, 57th Regiment, 1833;" together with names rendered famous during the Peninsular war. It probably originally belonged to a British officer who was conspicuous for his bravery in that campaign.

**ARTIST DECEASED.**—A Mr. Constanti, an artist of merit, died recently at Waiiuea, Hawaii.

**NEARLY KILLED.**—Two men in the employ of O. B. Cummings were precipitated into a ravine while driving a horse and wagon down hill. They fell 50 feet and were badly bruised.

**NEW DRY GOODS AND CLOTHING STORE.**—Mr. Meyer, formerly of the firm of Gambitz & Meyer, has opened the new fire-proof building, at the corner of Yates and Langley streets, in which he has placed a fine assortment of dry goods, clothing, and gentlemen's furnishing goods, and which he is offering at low rates for cash. Parties desiring articles in Mr. M's line (wholesale or retail) would do well to favor him with a call.

**NEW STEAMSHIP ARRANGEMENT.**—It is said that the Pacific and Brother Jonathan will only run to Portland in future; and that the steamer Santa Cruz will receive their passengers, freight, etc., and bring them on to this port, entering Victoria harbor instead of unloading at Esquimalt. There is a prospect of a strong opposition to the Mail Company.

**ROBBERY.**—The store of P. McTeirnan on Johnson street, near Wharf, was entered on Saturday evening, during the temporary absence of the owner, and \$12 in coin and some blue cloth caps stolen. Officer Welch has arrested an Indian on suspicion of being the thief.

**ESQUIMALT TOWN ELECTION.**—The show of hands for a member to represent this district in the Assembly comes off to-day, and a poll will be opened to-morrow morning.

**THE "TERMAGANT."**—H. M. S. Termagant has been again placed upon the Docks at Mare Island, California. The repairs to the docks will cost \$30,000.

**UP.**—The barks Glencoe and W. B. Scranton, on the 24th ult., was up for this port at San Francisco.

**THANKS.**—We are indebted to Mr. Richard Stark, who came passenger per Pacific, for a file of late Portland papers.

**THE STARK TROUPE.**—The Stark theatrical troupe are playing at Portland. They will come on to Victoria shortly.

**CROWDED OUT.**—Several communications from the river are crowded out till to-morrow.

Later from British Columbia.  
The steamer Oster arrived on Sunday night from New Westminster. She brought 50 passengers and about \$60,000 in gold dust—of which amount Ballou's Express had \$28,000, and the balance was in private hands.

LOW FREIGHT.  
The steamers Fort Yale, Hope, and Col. Moody, are running opposition to each other. Freight to Hope from New Westminster is \$1 per ton.

WINTERING.  
About 1000 Chinamen intend wintering at Fort Yale; and a large number of whites are preparing to remain at Hope.

NEW BRIDGE.  
A new bridge is being built across the Fraser opposite to Cayoosh by Kirkman & Co.

NEW DIGGINGS.  
A miner from Cariboo informs us that new and rich diggings have been struck on Swamp river. All the ravines and gulches near that stream have been found to yield fine prospects.

KEITHLEY'S STRIKE.  
The claim struck about 14 miles from Forks City (Quesnelle River) by Keithley and Diller, is supposed to be the richest yet found. It is on a bluff 40 feet above high water mark, and the dirt is conveyed to the river by means of a chute, where it is washed by rockers.

THE WEATHER.  
The weather at Forks City was fine. The days were pleasant, while the nights were quite cool. Very little snow had fallen. 200 men will winter on the Quesnelle.

STRANGE CASE OF POISONING.  
A Frenchman, named Jourdan, who had been working at the South Fork of the Quesnelle all summer, ate some wild parsnip-root, at Williams' Lake, on the 14th ult., and died in twenty minutes. He was in company with a countryman named Pote, and had considerable gold dust with him.

ANOTHER BRIDGE.  
Barry and Adler have commenced the erection of a new bridge across the South Fork of the Quesnelle. It will be 200 feet long, will have four abutments, each of which will have a span of 50 feet. Foot passengers will be charged twenty-five cents each for crossing.

PROVISIONS.  
Provisions at Cariboo continued high. Flour was worth 60 cents per lb.; bacon, \$1; and beans, 55c.

ROYAL THEATRE.—Last evening, this theatre was jammed in every nook and corner by an audience who seemed highly delighted with the entertainment. The "Little Treasure," a most charming comedy, was the first piece performed, with Miss Susan as Gertrude; and by her naive manner of acting, together with a perfect knowledge of the part, made a decided impression, and elicited considerable applause. Mr. Robinson, in the character of Sir Charles Howard and Mrs. Robinson as Lady Florence Howard, were remarkably good. Mr. W. H. Robinson as Capt. Maidenblush was fine; and Mr. Burton, who took the very difficult character (for a male) of Mrs. Middleton, succeeded admirably. Between the pieces Miss Susan brought down the house by a beautiful ballad; and the Grand Pas Styrien dance by herself and talented brother, was loudly encored. The performances concluded with the burlesque of "Bombastes Furioso," which passed off extremely well.

BENEFIT OF MISS LULU SWEET.—This evening we hope to see a crowded house at the Colonial Theatre. Miss Lulu Sweet will take a benefit, and we think we speak within bounds when we say that we know of none more deserving of a bumper. Miss S. has always been foremost in gratifying the public by appearing at every benefit which has been given in this city since the Potter Troupe first arrived, and now that she comes before the community herself as a beneficiary, we trust a generous respond will be made on the part of the public. On this occasion, "The Wife," one of Sheridan Knowles' most beautiful plays, and "The Spoiled Child," will be performed. Between the pieces there will be singing and dancing.

The "Censure" Letter to Gen. Harney.  
Below we give the "censure" letter from Mr. Floyd, U. S. Secretary of War, to Gen. Harney. It is copied from the correspondence of the San Francisco Bulletin:

"Having given a most careful examination to all the events which have lately occurred in the department of Oregon, and to the examination of his conduct therein, submitted by Gen. Harney to this department, the Secretary of War feels it his duty to express his disapproval of the orders issued by Gen. Harney, under date of April 10, 1859, by which Captain Pickett was placed in command at Camp Pickett. A question having arisen between the governments of the United States and Great Britain, as to the sovereignty of the island of San Juan, and danger being anticipated to the friendly relations of the two countries from the condition of affairs upon the island itself, Gen. Scott was sent, on the 16th of September, 1859, empowered by the Government of the United States, to make such temporary arrangements as would avoid all collisions, until the whole matter had been amicably adjusted by the diplomatic actions of the nations. In pursuance of these powers, Gen. Scott repaired to San Juan, and having taken steps there which he deemed advisable, returned, leaving with Gen. Harney, for his guidance and instructions, letters and orders of the following dates: November 5th and 9th, 1859. The essential points of these instructions and orders were—first, the removal of the larger part of the United States force on San Juan Island; second, the retention of one

company of United States troops under Capt. Hunt; third, the special injunction to Gen. Harney to remember that the sovereignty of the island is still in dispute between the two governments, and until definitely settled between them, that British subjects have equal rights with American citizens on the island, accompanied by a copy of General Scott's assurance to Governor Douglas of his intention to instruct our commanding officers on the island to allow no person claiming to be a functionary of Washington Territory to interfere with any British subject residing or happening to be on the same island whilst it shall remain in dispute between our respective governments. In opposition to these instructions, Gen. Harney removed Capt. Hunt and substituted Capt. Pickett in his place, issuing at the same time to Capt. Pickett the following order:

Third—Under the organic act of the Congress of the United States for the establishment of the Territorial government of Washington, the first Legislative Assembly of 1854 passed an act including the island of San Juan as a part of Whatcom county. This act was duly submitted to Congress, and has not been disapproved. It is, therefore, the law of the land. You will be obliged, consequently, to acknowledge and respect the civil jurisdiction of Washington Territory in the discharge of your duties in San Juan, and the General commanding is satisfied that any attempt of the British commander to ignore this right of territory will be followed by disagreeable results out of his power to control.

The Secretary of War disapproves this order of General Harney, in violation of the order of General Scott, and of the agreement between the two governments respecting the island of San Juan, which might have been attended by disastrous consequences. At the same time, whilst expressing his disapprobation he has no doubt of the good intentions of Gen. Harney in the premises; and from his known high character and distinguished services he is not disposed to be severe in his condemnation.

JOHN B. FLOYD, Secretary of War.

WAR DEPARTMENT, Oct. 25, 1860.

THE PAPAL STATES.—The following brief description of the Papal States may be of interest at this moment. Before the war of Italy, the States of the Church were divided into four legations, not counting the district of Rome. The first comprised the provinces of Bologna, Ferrara, Forlì and Ravenna, and were called Romagna. The second consisted of the provinces of Urbino, Pesaro, Macerata, Loreto, Ancona, Fermo, Ascoli and Camerino, and are commonly called the marches. They have on the north Romagna, on the east the Adriatic, on the south the kingdom of Naples, and on the west Tuscany and the provinces of Spoleto and Perugia. They separate Romagna from the Neapolitan States. The third legation consists of the provinces of Spoleto, Perugia and Rieti; the first two constitute what is called Umbria. The town of Foligno, which is in Perugia, was formerly the Fulgum of the ancients. The fourth legation comprises the provinces of Velletri, Frosinone and Benevento; the latter, however, is surrounded by Neapolitan territory. The district of Rome, which is placed under a special regime, consists of that city, of Victorio, Orvieto and Civita-Vecchia, the latter being an important commercial port.

HOLLOWAY'S OINTMENT AND PILLS.—Shortness of Breath, Colds, Coughs.—Thousands of testimonials can be produced to prove the powers possessed by these corrective remedies in asthma, incipient consumption, and all disorders of the chest and lungs. The Ointment well rubbed upon the chest and back, penetrating the skin, is absorbed and carried directly to the lungs, where, in immediate contact with the whole mass of circulating blood, it neutralizes or expels any impurities which are the foundation of consumption, asthma, bronchitis, pneumonia, etc. All pulmonary complaints are thus easily cured. The asthmatic chest, tightened to suffocation in foggy, damp weather, is liberated by Holloway's Ointment and Pills, which alike cure the short, dry, consumptive cough, and the heavy expectoration attending bronchitis.

San Francisco Markets.

SATURDAY EVENING, NOV. 24.  
The demand for goods to supply the requirements of the interior and northern and southern coast has been quite active, and the jobbers have been well engaged; but from first hand, excepting in a very few lines of goods, trade has been by no means active. There has been an increased demand for Adamantine Candles, resulting in considerable sales at very full rates, and advanced pretensions on the part of holders. There were a few small transactions in demand for Case Goods, Butter, Lard, Coffee and Spirits. Grain was in active demand, with a light supply offering of Wheat and Barley, much of that which is coming to hand having been previously engaged. FLOUR—\$1 40/100 per 100 lbs. To the Electors of Esquimalt Town District.

GENTLEMEN:—A vacancy having occurred in the representation of your Town by the resignation of Mr. G. T. Gordon, I beg to offer myself as a candidate for your suffrages at the approaching election.

I can assure you that it is not empty ambition, or the gratification of personal vanity that prompts me to offer myself; on the contrary nothing could have induced me to have done so but the solicitations of many electors and friends, who feel confident that if I am returned I may be enabled, if not to promote your interests, at least to try and prevent abuses.

My political principles are well known to you; I have always advocated the greatest amount of rational freedom and have steadily set my face against all abuses wherever they may exist, and shall never swerve from this course, and having a good deal of property at stake in the colony I think offers some guarantee that my own interest, in common with yours, would naturally prompt me to endeavor to promote the progress and prosperity of the country.

I will always assist the government for the time being to carry out all measures (that in your opinion as well as my own) may be conducive to your interests and the welfare of the country, and will oppose most strenuously all acts that interfere with the rights and liberties of the people or retard the progress of the country.

The real question to be decided is not whether I or another man is to represent you, but whether law and the rights of the people are to be sustained or trampled under foot. In the one case you sanction the destruction of the most sacred bulwark of the elective system; and, in the other case, by returning an independent man to represent you, you thereby vindicate a most hallowed right, and show your disapproval of an unjust and iniquitous act.

I have the honor to be, Gentlemen,  
Your most obedient servant,  
JAMES M. REID.

MISCELLANEOUS.

THE WORLD'S FRIEND:  
Holloway's Ointment.

**A Cure for Piles and Fistulas.**  
Inflammation of sensitive parts, piles, fistulas, and such like painful diseases may be presently relieved, and ultimately cured, by the proper and diligent use of this cooling and healing Ointment, whose action should, in such cases, be assisted by judicious doses of Purgative Pills, or many days have elapsed the anxious patient will experience a wonderful degree of ease from this treatment. They are equally suitable to both sexes, and all ages.

**Coughs, Colds, and Asthma.**  
These complaints of the chest come on with alarming frequency. The Ointment should be assiduously rubbed at least twice a day on the chest and throat, the shoulders, when the violence of all symptoms will gradually give way, the breathing become longer, and the oppression less. No medicines are more efficient in chest complaints, none can be so safely and equal safety and certainty. Both Pills and Ointment are accompanied by very clear and simple directions for using them.

**A Man who refused to have his Leg off.**  
"From the Kilrush Advertiser, June 2nd, 1860."  
BENJAMIN COX, Esquire, Magistrate, said in the Board Room at Kilrush, that he knew a man who had been in the Infirmary and was actually turned out as incurable, on his way home to Kilrush, purchased at Ennis, Holloway's Pills and Ointment, for, as he said, it could not be worse with him. This man, said Mr. Cox, became by their use as sound and as healthy as any man in the room. These celebrated Pills and Ointment will cure any wound, sore, or ulcer, however long standing; if properly used according to the printed directions.

**Gout and Rheumatism.**  
The essence of these diseases lie in the blood, which has, floating through each vessel, the pain-giving poison, which irritates and inflames every tissue it comes in contact with, and produces the hot, swollen, and enlarged condition of the joints so characteristic of gouty diseases. The philosophy of cure consists in overcoming this depravity in the blood, which is rapidly purified by the use of the Pills. The Ointment, when rubbed upon the skin, penetrates the system through the pores, acts in unison with the Pills, and soon effects a cure.

**Drops, Swollen Legs or Ankles.**  
The various kinds of dropsy, whether windy or watery, arise from some obstruction to the free circulation through the blood vessels or lymphatics, or depend on the inflamed state of some secreting surface. Holloway's remedies, of which the efficacy cannot be exaggerated, act directly upon the blood, the absorbents and secretions, with a power that no dropsy, edema, or anasarca, can long resist. They regulate the proper flow of blood to every organ, and purify it likewise, they filter out everything that is morbid or injurious, they thoroughly regenerate the system, yet potent as they are for good, they are powerless for evil. They do not contain mercury or any noxious substances. They act safely and certainly.

**Bad Legs, Bad Breasts, and Old Ulcers.**  
This invaluable Ointment was never known to fail in the cure of any wound, sore, or any ulcer, as can be proved by innumerable testimonials from persons who had been discharged from Hospitals as incurable, and yet by perseverance they have been made as sound as they were the day they were born, by this incomparable Ointment. For pimples, blotches, scald heads, and scorbutic humours, it is equally efficacious.

Both the Ointment and Pills should be used in the following cases:

- |              |                |          |               |

| Bad Breasts  | Chapped Hands  | Gout     | Skin-diseases |
